

Wedding Bands

IGS *Inc.*
DIAMOND PROFESSIONALS

Wedding Bands from IGS Diamonds, Inc.

Metals and Finish

Wedding bands are available in White gold, Platinum, and Palladium. Ring finishes such as satin (brushed), hammered, milgrain and others are pictured throughout the catalog.

Engraving

We also can engrave that special message in block lettering or script. Hand engraving is also available.

Comfort Fit

Most customers prefer a comfort fit. This is when the band is rounded and raised inside to make for a more comfortable feel. This feature adds more weight and sturdiness to the band therefore, increasing the cost.

Manufacturing Time

Rings take generally 7-10 days to manufacture.

About IGS Diamonds, Inc.

Serving the community since 1974, IGS Diamonds, Inc. specializes in diamonds, jewelry repair and custom design. We also do appraisals for retail and estate purposes. Other services include watch batteries and consignments. At IGS our goal is to give our customers what they want at the best possible price. We have been at our current location in Vienna, Virginia since 1994, just south of Tysons Corner. We have been featured in the prestigious Washingtonian Magazine as one of the best places to buy diamonds in the DC area.
